

## **The Court of Appeal abolished Injunctive relief that was on demand of City attorney office conducted in Luka Beograd**

**Belgrade, April the 14<sup>th</sup> 2011**

The company Luka Beograd is taking a chance to inform the public and business partners about the decision of Court of Appeal. This court abolished the Injunctive relief of prohibition of land disposition, which is brought on demand of City public attorney office.

As it is already known Luka Beograd had litigation proceedings with the registration of right in the public land books with Belgrade Municipality from 2003 to 2011 and got all three litigation proceedings in its advantage.

These proceedings had been litigated on demand of City public attorney office in Belgrade in the following way: the Contract old 36 years, which never came in effect, is “extracted” out of city archive. In that litigation proceeding all legal opportunities are depleted, but the Public attorney office in Belgrade Higher court had initiated litigation against Luka Belgrade and had demanded the induction of Injunctive relief – the prohibition of land disposition, which was also the subject of litigation proceedings previously.

The Court of Appeal had on appeal of Luka Beograd by its judicial decision abolished Injunctive relief on February 24<sup>th</sup> 2011, whereby is confirmed that Luka Beograd is one and only holder of disposition of this land.
